Why you should use the CC-BY license and not CC-BY-NC/ND
Warum Du die CC-BY Lizenz wählen solltest und nicht CC-BY-NC/ND

You keep the right for your work

You are always given credit as the creator of the work

- allows free and legal sharing, re-use, dissemination
remix, adaption in any medium or format
- provides legal clarity (see [legal code](#) for CC BY 4.0)
- protects from unintended exclusive commercial
exploitation, **commercial use for everyone**
- CC licenses are not revocable
- **consider: CC-BY-SA**

Why you should not use the CC-BY-NC/ND Warum Du die CC-BY-NC/ND nicht nutzen solltest

- **exclusive commercial rights go to the publishers** = publishers usually require you to assign reserved commercial rights to them via the **license to publish agreement**
- **commercial exploitation by publishers**, e.g. licensing to AI companies, **without your consent and without any revenue sharing**
- **not compatible with OA definitions** (according to Berlin declaration)
- **legal uncertainty**: what constitutes commercial use (under German law)
